UTSA. Department of Integrative Biology

Letter of Recommendation for Peer Mentorship

The Department of Environmental Science and Ecology's Peer Mentors serve a very important role for our students and faculty. We depend on the peer mentors to help us reach out to those students who are low performing and give them the tools to become successful in the classroom. Peer mentors will help their assigned professor with a lecture course under the supervision of the faculty member. Aside from that, peer mentors are responsible for holding office hours and study sessions for their assigned courses. We expect all peer mentors to actively engage the students in the courses they are assigned to. They are expected to monitor the student progress, and reach out to the students who are not performing at an acceptable level. Please use this form to indicate your thoughts on the applicant's ability to be a peer mentor. Please send the recommendation to julian.chavez@utsa.edu or cheryl.negrete@utsa.edu.

Applicant's Name:						
Reference Name:						
Date:						
Department:						
University:						
How long have you know	n the appli	cant?				
In what capacity?						
Has the applicant served a mentor under your super	•	•	er			
Please indicate the appl	icant's str	engths in r	elation to the	peer ment
