CONsortium of Nuclear sECurity Technologies

SUMMER RESEARCH EXPERIENCE FOR UNDERGRADS

Dates: May 28th - July 26th

The objective of the CONNECT Summer Undergraduate Research Experience is to provide students a multi-disciplinary environment to learn the science, the politics & policies, as well as the technology enabling advancements in nuclear security.

UTSA is recruiting high caliber undergraduate juniors and seniors from minority serving institutions across the country.

AREAS OF RESEARCH:

- Public Policy and Administration
- Fuel Cycle Materials
- Advanced Characterization and Forensics
- Computational Modeling and Data Analytics
- Detection Science

BENEFITS INCLUDE:

- SUMMER HOUSING
- \$5000 IN STIPEND AWARDS
- MENTORSHIP
- NETWORK WITH NATIONAL LAB SCIENTISTS
- RESEARCH POSTER PRESENTATION

**INTERESTED? APPLICATIONS ARE
DUE MARCH 21, 2024!**
