

SPARK-LAB

Program dates
June 8-26, 2026

Student Physics and
Astronomy research
kickstart Lab

Open to
students in 11th
grade and up

Students will gain hands on research experience in a lab setting with current graduate students and post docs

- Lab tours on Wednesdays
- Student seminars held each Friday
- Mini poster presentation final project

Participating Labs:

- Extreme Environments Materials Lab
- Kleberg Advanced Microscopy Center (KAMC)
- Laboratory of Computational Nanotechnology
- Materials Physics Electron Microscopy
- MEMS Research Lab
- Metallic Nanoparticles Biomedical Applications Lab
- Molecular Biophysics Lab
- Planetary Material CHaractERization Facility (PMCHEF)

Spots are limited
