We welcome students to the first of the student lunchtime series on Friday, September 3, 2021.

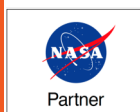

This first session will be an introduction where we will talk about what's coming up and what's expected (hosted online). For questions, contact Dr. Grant Macdonald at [grant.macdonald@utsa.edu](mailto:grant.macdonald@utsa.edu).

This will be a bi-weekly student-only lunchtime talk series for graduate students (upper undergrads also welcome) from across all of CAMEE.

Each week a student will be randomly chosen to give a talk to their peers on their research, or another topic of their choice related to their work/academia/the department. As well as giving students the opportunity to learn about and from each other's work, and get to know each other, this is the ideal setting to practice giving talks in a relaxed setting just in front of your peers.
