Biography: Alex Toder is a Soil Conservation Scientist with USDA National Resource Conservation Service, Marfa, Texas. Prior to joining NRCS in 2022, Alex received his M.S. degree in Environmental Science from UTSA, and his B.S. degree in Wildlife Ecology at Texas State University. Prior to starting his MS at UTSA, Alex did several internships with the different federal agencies and volunteered with the US Fish and Wildlife Service. At UTSA, his thesis research analyzed aquatic invertebrates in isolated and permanent pools in Leon Creek Greenway. In his current position at NRCS, Alex works with private landowners to restore rangelands, degraded riparian sites, and improve wildlife habitat.
